PUBLISHED EVERY THURSDAY

VOL. XXIII.

CLAY CITY, KY., THURSDAY, FEBRUARY 21, 1918.

NO. 8.

Progressive Farmers Buy Tractor.

Messrs. R. W. and Carl Garrett have just received a new oil tractor to put in operation on their splendid farm near this city. This is the first tractor ever brought to this county for farm power purposes. The Messrs. Garrett will plow, thresh grain, shred fodder, saw wood and use this improved piece of machinery for diverse purposes as they are now being used by up-to-date farmers in other popular farming sections. These gentlemen know how to farm and they know how to farm for pay. Powell county needs more such farmers.

"Congressional Directory."

Congressman J. Campbell Cantrell has favored the Times office with a copy of the "Congressional Directory," for which he will accept our thanks. This book is very valuable. It gives, among many things of interest, a biographical sketch of each Senator and Member of Congress. This feature alone makes the book highly appreciated by us. Any of our readers desiring to look up matters contained in this book, are invited to call and peruse same with the joint compliments of our Congressman and our local paper.

Taking Up Surplus Switches.

The L. & N. Railroad is taking up every switch and spur of track not in immediate use in this city and shipping the same away. They have even removed the "Y" which will prevent trains from turning around when occasion demands it, forcing trains when prevented from going all the way to Winchester or Malony to have to run backwards. The extreme high price of steel is said to be the cause for this action of the railroad.

In the Sunny Southland.

Mrs. C. E. White, who has been with her sons at Louisville for some months past, has joined her husband at Mobile, Ala. Writing from there to have their paper forwarded to their new home, Mrs. White says that when she left Louisville the thermometer was four below zero, but when she got to Mobile she found the people there sitting comfortably in the parks and on their porches in full summer clothes. The change was most surely very agreeable about that time.

Building New Residence.

Mr. F. G. Powell, who recently bought O. L. Stewart's splendid farm across the river from Clay City on the north side, is building a new home on this place and will otherwise improve the old farm. Mr. Powell is the kind of people we like to have come into our community, make it better for his having located with us.

Street Improvement.

The town board will receive the thanks of a grateful taxpaying public for the improvement of the street from the bridge across the race at the bank westward as far as they have gotten with it. It has been slated which is a decided improvement over gravel and is much cheaper, it would seem.

A merchant can get along without advertising and so can a wagon

Select Seed Corn Now.

My dear Farmer:—

I want to urge you to begin now selecting your seed-corn. Never before was there such a shortage all over the state. Corn was caught by the early frosts and failed to mature, thus making it sappy and unfit for seed. Shuck out your corn and select what you think is good seed ears and hang it up or spread it out to dry. Later test it to see if it will sprout. I will be glad to furnish you information as to testing seed-corn or come to your place and help you test it. Shelling by hand takes more time but it pays. Select twice what you will need for your neighbor will want it at your price. Any old corn on hand should be saved for seed. It is a bad idea to buy seed-corn from another section of state for it may not be adapted to your soil, and no one this year will guarantee the germination.

Get busy on the seed selection and testing and let us not be slackers when it comes to the corn crop this year. It will take the three "Bs" to win the war: "Bread" "Bacon" and "Beans."

Very truly yours,

H. H. Harrison,

County Agri. Agent.

Stanton, Ky.

College Entertainment.

On the night of Feb. 22 an entertainment will be given in the college building at Stanton by the pupils of the school. As this is the anniversary of the birth of Washington the entertainment will to a large extent be in keeping with the day. There will be songs, speeches, plays, drills etc. by the school.

At the close of the entertainment a service flag will be raised in honor of the boys from Stanton College who are now in the service. There are twenty of them. The whole meeting will be a patriotic rally generally.

To this entertainment and patriotic meeting everybody is invited. No admission will be charged at the door, but an offering will be taken at the close for the benefit of the County Red Cross.

Mrs. McGuire Entertains.

Mrs. W. T. McGuire entertained the Epworth League Saturday evening. About twenty were present. Innocent games were indulged in; plenty of vocal and instrumental music was had, and every one enjoyed the evening very much.

Members of the League are always glad to learn that Mrs. McGuire is to give a social because they are always sure to have a fine time. After the games and music a delicious lunch was served.

Senatorial Bill Passes Houses.

The Senatorial bill passed at Frankfort and Powell and the constitution are completely ignored when it is placed in a district with Mason, Fleming, Bath, Rowan and Menefee counties. Undoubtedly the largest district in the State in which we have no hopes of ever getting Senator that knows or cares any thing for Powell. We shall remember some persons who could have protected us but neglected to do it.

without grease - but it goes hard.

Looking After Oil Property.

Mr. C. F. Clark, of the firm Oldendorf, Baunam & Clark, of Mt. Carmel, Ill., holders of the G. W. Clark lease on Hardwick's Creek, came in Wednesday morning to inspect the developments of the well on the Clark lease reported in the Times last week. The oil is there for any one to see and we are sure Mr. Clark will find the outlook so promising as to resume operations on this and other leases held by his company in the Spring. The recent strike of the 30 barrel well on the Ewen farm at Stanton, and the over-flow of the Clark well on Hardwick's Creek, has greatly stimulated leasing in this section and much drilling in this portion of the county is sure to take place in the Spring. Let them come on, we are ready to co-operate with them in any way we can. We, like the prospectors, believe the oil is here, and will welcome the developers.

Mr. Oldendorf, of this firm is also in the county.

Postmaster O'Rear in The Game.

The Peerless Oil Company, incorporated under the laws of Delaware with a capital stock of 50,000, is composed almost entirely of Winchester people. The following are officers: D. T. Matlack, president; George E. Tomlinson, vice president; J. H. O'Rear, secretary and treasurer; George B. Williams, general manager; B. R. Jouett, general counsel; directors, D. T. Matlack, George E. Tomlinson, John M. Hodgkin, George B. Williams, M. T. McEldowney, J. B. Pierce and J. H. O'Rear. The stock is owned by local persons and there is none on sale by the company, the stock having been disposed of before it was known generally there was any for sale.

The Peerless has a number of good leases in Lee county on which it has already begun operation.—Winchester Sun.

To Collect Oil License Tax.

The first license tax on oil has been placed in the hands of Ex-Shepiff H. T. Derickson for collection for the first quarter, ending October 31. It amounts to about \$1,800. As there are four quarters in a year we may expect \$5,600.00 for the full year. And with more wells coming in every week, we would not be surprised to see the total for the first year amount to 10,000. Should it do this, the total tax would be double that of former years.

Two Years in The Pen.

Dewey Frazier, charged with raising a check on a farmer of this county, was given two years in the penitentiary in Circuit Court this afternoon. Frazier lived in Powell county but worked in this county at the time he committed the crime.—Mt. Sterling Advocate.

Buying Cattle and Hogs.

Ed Cain and brother from Waco, were at Spout Spring buying cattle and hogs this week from M. C. Vancleve and others. They paid \$15.00 per cwt. for hogs; cattle, \$8.00 per cwt. for two year old stuff. They also bought some yearling calves at \$30.00 a head.

Thieves Get Meat.

Thieves broke into the meat house Tuesday night of 'Squire John A. Sewell at Waltersville and stole nearly all the meat in the house. This is a sad misfortune for the 'Squire who had enough meat stored away to do him for the year, and the loss falls heavily on one, like the most of us, unable to replace it without it being keenly felt. We sincerely trust that officers will recover the meat and vigorously prosecute the thieves, thereby giving these and other prospectives a serious warning of what is in store for such characters. A penitentiary sentence is what is due them, and we hope to see every man get his dues. Particularly meat thieves.

Good Sugar Weather.

We have had some excellent sugar weather the past weeks, and it certainly behooves us to make all of it we can, as the prospects are not very flattering to get all of the sugar we require again next fall as was the case last fall. In fact the situation may be expected to be much worse as a natural consequence from year to year as the war progresses. While sugar is tolerable plentiful at this time, we can not dare to attempt to lay in an advance supply as the Government will sure get us for hoarding.

Passes Successful Examination.

Johnny Sewell, for months past the efficient assistant to Agent E. C. Vollmer at the depot, went to Paris Monday and stood the examination for telegraph operator. He passed a most credible examination, and is now eligible for the position as operator any where on the line of the L. & N. road. Operators are in great demand at this time, and we are sure Johnny, though a mere lad, will make good.

Drilling Active at Stanton.

Two wells are in process of drilling at Stanton. An in-experienced driller caused trouble in the drilling of well no. 2 on the Robt. Ewen farm, but a new location has been made and they are now well started again. The Ohio Oil Company is drilling their no. 1 on A. H. Norton's place. The estimate of the first well on the Ewen place has been raised from thirty to fifty barrels.

Looking Over Their Oil Lands.

W. S. Collier, president of the Artisan Oil & Gas Company, of Newport, Ky., was here the first of the week. His company owns leases on several hundred acres of land on Hardwick's Creek and around Turkey Knob. They will begin drilling again in April. Mr. Collier was on the lookout while here for a house to move to in April.

The Times in Demand.

Our small surplus copies of last weeks Times were gobbled up and orders continue to come in. Of course we can't fill the orders but regret that we can't. Persons wanting additional copies of the Times should send in advanced orders as we only print close to the number of subscribers we have, adopting the saving policy in conformity to the wishes of the Government.

Local Bevitlies.

A. T. Whitt was in Lexington Tuesday.

L. P. Keith was in Lexington yesterday.

James B. Hall, of Lexington, was here Saturday.

Sam Carr and George Gravett were in Cincinnati several days this week.

Mrs. Clark Mize, of Quicksand, is visiting her sister, Mrs. J. H. O'Rear.

Postmaster and Mrs. J. H. O'Rear spent the day Sunday with Mr. and Mrs. H. G. Crabtree near the city.

L. B. Burgher, of Winchester, was visiting his brother J. N. Burgher first of the week, near Spout Spring.

Wm. Swope, of McCormick, was down Monday and while here called and renewed for another year of the Times.

J. S. Taulbee, of Lee county, was here last week looking at some farming land in view of buying a farm near Clay City.

The little daughter of Mr. and Mrs. Rankin Barnett is recovering from a most severe and dangerous attack of stomach trouble.

Everybody invited to come to the Bible study every Friday evening at Mrs. J. B. Eaton's. The Sunday school lesson is the subject.

The croaking frogs sounded their first notes Monday. This was a "token" of the approaching Spring—not far away. We are ready for it.

Mrs. C. Hackworth and daughter, Miss Vergie, has returned from a visit to the family of Wesley Hackworth, son of Mrs. Hackworth at Beattyville.

Owen Patrick has sold his farm at Kimbrell to Harlan Winburn for \$3,000. Possession to be given March 1st. Mr. Patrick has also closed out his stock of goods at that place.

H. G. Crabtree has entered the oil business and is taking leases in prospective territory wherever he can find them loose. Here's wishing Mr. Crabtree the success his push and energy deserves.

Friday is Washington's birthday. It will be observed here as usual, we guess, by the bank and post-office being closed. Impressive reference to the "Father of His Country" will be made in the various schools now in session.

Saturday was pretty generally mill day with the country millers and they were frequently called upon for certificates so their patrons could get some flour from their groceryman. Uncle Sam is pretty strict but then we suppose he has to be.

Dr. and Mrs. Albert Easter returned Tuesday from an extended visit to relatives in Clark county. While away they visited Mr. and Mrs. Sid Easter at Irvine, Mr. and Mrs. Fred Tipton at Red House, Madison county, and Mr. and Mrs. J. A. Walters at Ford.

THE TIMES.

J. E. Burgher, : : Publisher.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

A HOME-MADE PAPER

THURSDAY, FEB. 21, 1918.

SUBSCRIPTION RATE,
ONE DOLLAR PER YEAR.

The Times is an ardent Prohibition sheet as all our readers can testify. The recent announcement coming from Switzerland that Germany has stopped all her breweries and turned them into meat packing plants, has so moved us that we cannot refrain from commenting upon the situation as a matter of comparison with the way our own fair country is handling the beer situation. A few figures as to the output of the five leading warring nations will not be out of order here.

In the Fiscal year ending July 1, 1917, there were reported as having been made in this country by the American Brewers' Journal the previous year the following amount of beer in barrels:

| | |
|------------------|-------------|
| United States... | 60,117,379 |
| Great Britain... | 36,942,820 |
| France... | 11,000,000 |
| Germany... | 7,700,000 |
| Austria... | 2,360,000 |
| | 108,759,999 |
| | 10,000,000 |

A very striking contrast in favor of Germany. Ten to one in favor of the Teutons, in fact. And Germany has cut it out altogether for 1918. This is Germany's method of conserving food.

How different to the method of the United States which has also found it necessary to save food. Here we do not shut down the breweries to conserve food, but unmolestedly allow them to continue to operate, using between 50,000,000 and 60,000,000 bushels of barley every year, which Herbert Hoover, U. S. Food Administrator said makes as good bread as wheat when mixed with that cereal. Our method of saving wheat, that we may have it to send to our allies, is to call upon every soul in the Republic to not use wheat for bread 11 meals out of 21 and let the brewers run on. Resolving the situation that to get flour at all you must also get as much meal or other substitutes at the same time.

Then do you have to buy meal or other substitutes to get the output of the barley when it is made into beer? No. You can buy all of the beer you may want or can pay for without buying any food whatever. The brewers, who consume millions of bushels of barley which when mixed with wheat makes as good bread as all wheat, have no restrictions whatever on them as to how much of it they use.

Neither are they limited as to the amount of fuel they use or when they use it except in common with restrictions with business of an up-building nature. The closing of the breweries thirty days would have furnished the Government the necessary coal it needed, without closing legitimate business, greatly hampering it and losing honest men much money. Enough that some of them claim they could have paid \$200 per ton for coal to run on with less loss.

At the same time we are advised that shipping of the country is in bad condition. So much so that the Government found it necessary to

take over all the railroads of the country in order to get the accommodation it required. The people are requested to do no more shipping than they can possibly help. Many passenger trains have been taken off their usual runs, and this has caused the remaining trains to be overburdened with traffic, and to be run nearly all the time behind time. The people are asked to bear all of this, and they are doing so without a murmur.

On the other hand what sacrifice has been asked of the brewers? We have heard of none. They use, estimated, 700,000 cars yearly it is said, but there is no talk of stopping them from using these cars so badly needed for other purposes. They are to continue to use this many, or more if they need them to haul their coal, grain and booze over the country.

We are also reminded that the German submarine is sinking ships far faster than we are building them, and the skilled mechanics of the country are urged to register for work of this class with the Government. At the same time reading the Brewers' Gazette we learn that "The purchasing committee of the Brewers' Association of France has contracted with American firms for the delivery of barley and malt from the United States and part of the deliveries have been effected." We must then conclude that Supply ships have stood idle in Atlantic ports for the want of coal to steam them, while other ships loaded with barley bound for the French breweries have ploughed the seas. To get the coal the Government needed, was instituted the "Heatless" days.

The question then naturally arises with a Prohibitionist, why this discrimination in favor of the brewers, most of whom are Germans?

All loyal American people are willing and ready to comply with every request of the Government, but it is a duty we owe to our Government and to ourselves to call upon the Congress of the United States to have the Brewers to make a like sacrifice with the loyalty.

We cannot leave this subject without appending the following from the American Issue:

While we have our "wheatless days" and while the mails are choked with frantic appeals from Washington to conserve the grain supply, we are, as a nation, not only squandering between fifty and sixty million bushels of grain in the manufacture of beer, but we are also supplying French breweries with barley. We are using our tonnage in shipping brewery supplies when we ought to be shipping food and munitions.

While America is making this preposterous exhibition of wasteful inefficiency and jackassery, Germany has entirely prohibited the use of grain in the manufacture of beer.

American homes are deprived of grain and asked to eat crumbs in order that hyphenated brewery overlords may run riot, not only wasting from fifty to sixty millions of bushels, but using our tonnage to transport brewery supplies to France, tonnage so desperately needed to carry guns, troops and munitions.

What a ghastly policy of waste, disloyalty, inefficiency, sloth and stupidity!

If Congress does not bring relief, Congress will have to answer to American motherhood and to American conscience.

To Draw Lightly Upon Farmers.

The President's message to the Farmers at Urdana, Ill., includes the statement that while farmers are not as a class exempted from military service, and would not like to be set apart as a class, an effort will be made to draw as lightly as possible upon farm labor in the second draft and efforts to minimize the difficulties of labor shortage already existing will be made.

Not one of the Kaiser's six sons has permitted himself the distinction of sailing a Zeppelin or a submarine.

Dr. Charles M. Sheldon, author of "What Would Jesus do?" just returned from England, is reported by a press dispatch as charging that vice is rampant in the vicinity of camps, and that more than 20,000 Canadian soldiers have been sent home incapacitated by drink and vice. Probably Dr. Sheldon will be bitterly assailed for his statement, but it is made by a man who has England's welfare and the allied cause next to his heart.—Methodist Clip Sheet.

The Times Club Rate:

This is the time of year when hundreds renew their subscription to the local paper, and as many of them will want additional reading, we have arranged club rates with the following papers at the price mentioned:

| | |
|------------------------------------|--------|
| Times and Louisville Daily Post... | \$3.65 |
| Times and Cincinnati Post... | 3.65 |
| Times and Weekly Enquirer... | 1.50 |
| Times and Farmers' Home Journal... | 1.75 |
| Times and Home and Farm... | 1.35 |
| Times and Inland Farmer... | 1.35 |
| Times and McCall's Magazine... | 1.50 |

Persons desiring more of the above papers than is included in the club they first select, can find the cost of other papers by subtracting one dollar from each club rate including the paper you desire and add this amount to the club you first select.

Valuable Town Property For Sale

A two story frame house with 9 rooms besides a bath room, hall way, attic and a concrete cellar under house 32 feet square. Also a furnace in cellar and a private water system with hot and cold water on both floors and in cellar with built in wash laundry tubs with 3 compartments. Barn and hen house and garden of nearly an acre. Twenty fruit trees set out in yard. Closest house to Stanton College and close to depot. Owner desires to leave state and bargain for quick sale. Twenty five cords of dry stove wood corded up in cellar.

Paul Derthick, Stanton, Ky.

AND NOW THEY ARE COOKING TOBACCO TO MAKE IT BETTER

For a good many years The American Tobacco Company have been conducting a series of experiments having as their object the improvement of smoking tobaccos.

And it is interesting to know that one of the greatest of their discoveries was one of the simplest, and that was, that cooking or toasting tobacco improved it in every way, just as cooking most foods improves them.

They took a real Burley tobacco, grown in this country; toasted it as you would toast bread; moistened it to replace the natural moisture driven off by toasting; made it into cigarettes, called them "LUCKY STRIKE, the toasted cigarette," and offered them to the public.

The result has been the greatest demand ever created for any tobacco product in a similar length of time.

The change produced by toasting is not only most wholesome, but the flavor is greatly improved, just as cooking improves meat, for example.

Relief For Farmers.

"Fifty-fifty" rule as applied to farmers having on hand corn, corn meal or other flour substitutes.

"Any retail merchants or flour miller can accept a certificate (in the enclosed form) of any farmer, and is authorized to sell him on receipt of such certificate not exceeding 24½ pounds of wheat flour without substitutes.

"Provided, however, the merchant or miller must confine each customer to an amount of flour not exceeding seventy per cent. of his normal consumption."

FRED M. SACKETT,

Federal Food Administrator for Kentucky.

1. All retailers should urge all customers to utilize substitutes to the greatest possible extent.

2. Should confine themselves in sales of flour to their own customers except in exceptional cases, which should be reported to their County Food Administrator.

3. Should sell flour to no other parties except with the required amount of substitutes.

Retailers and millers must see that certificates are dated, and must keep them on file for inspection by Food Administration officials.

making sale of flour for their protection.

To the Pen.

Porter Rubank, a deputy U. S. Marshal who killed Henry M. Ringo the last of December at Mt. Sterling, was tried at Mt. Sterling last week and found guilty of man slaughter and sentenced to the penitentiary for ten years.

Ringo is a cousin to John Ringo of this city and was city clerk of Mt. Sterling and a fine citizen and good business man.

Old Papers for Sale at The Times Office.

In the Same Company.

The Times is in receipt of a clipping from the Coultersville Ill. Republican, which is a letter from Arthur Burgher, son of Mr. and Mrs. Joe Burgher, of Coultersville, formerly of this county. Young Burgher is a Marine, doing guard duty at a large munition plant at Hingham, Mass. He is a nephew of S. G. Baker, J. W. Burgher and Mrs. Elder Crow of this county. He left here a very small boy with his parents seven years ago. A striking coincidence of his enlistment is that he and Edmon Burgher, of this city, enlisted the same day, neither knowing of the other's action, or of their relation until assigned to the same company where they remained together in training for several weeks at Paris Island, S. C. Arthur was sent to Boston in December and Edmon transferred to the Marine printing office at Paris Island.

Profits on Flour Limited.

It is the opinion of the United States Food Administration that the gross maximum profit for wholesalers in flour should not exceed from 50 to 75 cents per barrel.

The profit to retail dealers in original mill packages should not exceed from 80 cents to \$1.20 per barrel, depending upon the character of service performed. Where retailers sell in amounts less than the original mill packages, the gross profit should not exceed 1 cent a pound.

VAUGHN'S MILL.

Chas Welch sold to Robt Shimmessel, one lot of timothy hay, at \$21.00 a ton.

Trigger Gravett, with his family, has moved from Clark County into the Nelson property.

Thomas Curtis Jr. spent Saturday night and Sunday with John Powell, on upper Hardwick's Creek.

Dr. Martin was summoned Saturday, to see Mrs. Nettie Welch, who is quite sick at this writing.

Geo Gravett, was at Cincinnati, from Saturday till Tuesday visiting his brother in law Chas Nelson and attending to other business.

Must Keep Out Of Ditches.

The Town authorities have decided to break up the practice of riding and driving in and across ditches on the side of the street where they are now open. It is important that all drains be kept open to lead off the water, and if the practice of using them as a road to keep them filled up is not immediately stopped the persons so offending will be taken into custody and prosecuted. This will save the notice and warnings to all offenders of the ordinance which forbids this practice.

No Sale for Hens and Pullets.

Effective February 11—Dealers shall not purchase, ship, sell or negotiate the sale of any live or freshly killed hens or pullets; provided that nothing in this rule shall prevent the purchase, shipment or sale of live hens or pullets for egg production purposes.

A bill will be introduced in the Legislature placing Powell with Wolfe and Lee Counties in a Legislative district. While the bill upon the whole is objectionable, it suits us.

After a young man has blown in all his money on a girl, she often shows her gratitude by marrying some other fellow.

They Let Him Sleep Soundly

"Since taking Foley Kidney Pills I believe I am entirely cured and I sleep soundly all night." H. T. Straynge.
Take two of Foley Kidney Pills with a glass of pure water after each meal and at bedtime. A quick and easy way to put a stop to your getting up time after time during the night.
Foley Kidney Pills also stop pain in back and sides, head-ach troubles, disturbed sleep and aching joints, and all pains due to kidney and bladder ailments.
Gainesville, Ga., R. R. No. 3. Mr. H. T. Straynge says: "For ten years I've been unable to sleep all night without getting up. Sometimes only a few minutes after going to bed I'd have to get up, and I tried everything I heard of for the trouble. Last year I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured and I sleep soundly all night."

Sheriff's Sale.

By virtue of execution No. 904 directed to me, which issued from the Clerk's Office of the Powell Circuit Court, in favor of Hardwick & co., against Lizzie Martin. I, or one of my Deputies, will, on

4th Day of March, 1918.

between the hours of One o'clock M., and Four o'clock P. M. at the Court House door in Stanton, Powell County, Kentucky, This being County Court day expose to Public Sale, to the highest bidder, the following property (or so much thereof as may be necessary to satisfy Plaintiff's debt, interest, and costs), to-wit: the sum of \$205.22 and the cost thereon. A certain tract or parcel of land situated in Powell County on the head of Hatcher's Creek of Red River and bounded and described as follows: On the East, South and a small portion of the West by the lands sold to Pryor & Button, Agent for the R. C. Cutter Lumber Co., by M. F. & J. Willoughby and on the Northwest, and North by the lands of Zach Connor, containing sixty acres levied on as the property of Lizzie Martin. Terms: Sale will be made on a credit of Three months, bond with approved security required, bearing interest at the rate of six per cent. per annum from day of sale, and having the force and effect of a Replevin bond. Witness my hand, this 9th day of February 1918.

Wm. GARRETT,
Sheriff Powell county.

Valuable Property For Sale.

Notice to Taxpayers.

You are hereby notified to call on the undersigned and settle your taxes. As I have orders to advertise all not paid by Mar. 1st, T. P. Mountz Tax Collector.

The Farmers' Opportunity.

WHEN we consider that 61 per cent. of the whole population of this Country lives in cities, we can understand the need of an increase in food products, which come chiefly from the farms. It is an urgent call. It is a call upon the patriotism of every farmer, farm hand and land owner. Every acre should produce its quota of food products. The time to plant for this result is at hand. No delay can be allowed. Plant big acreage. Plan for a big yield. Work for a bumper crop. Prices will be good. The Country's need is the farmers' opportunity.

Our Country Calls: Let Every Farmer Respond.
